GENERAL INFORMATION:

TITLE OF INVENTION:

TITLE OF INVENTION: Nucleic Acids, Proteins, and Antibodies

FILE REPERENCE: PA131P1

CURRENT APPLICATION NUMBER: US/10/264,237

CURRENT FILING DATE: 2002-10-04

FRIOR PAPLICATION NUMBER: PCT/US01/16450

FRIOR FILING DATE: 2000-05-18

PRIOR APPLICATION NUMBER: US 60/205,515

PRIOR APPLICATION NUMBER: US 60/205,515

PRIOR APPLICATION NUMBER: 2000-05-19

NUMBER OF SEQ ID NOS: 2876

SOFTWARE: Patent IN Ver. 3.1

LENGTWARE: PATENTING DATE

LENGTWARE: PATENTION OF 13.1
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             Length:
